Other Funds	\$ _____

D. **TOTAL ALL CAPITAL PROJECTS** \$ \$5,000,000
 (The total of Form1A, 1B and 1C
 should be reported in Part D)

Central Alabama State Community College

Form 1A

1.1. **Construct Library/Media Center**

The library building on the Alexander City Campus was built in 1968 and has had few changes made to it since. The windows are single pane windows set in thin wall panels. These panels and windows need to be updated with energy efficient materials. The HVAC system needs replacing and also the walls and ceilings need to be demolished and rebuilt. Basically, the building needs to be gutted and rebuilt. The building is in such bad shape that it would be impossible to conduct demolition and remodeling at the same time the building is in use.

2.1. **Re-roof Building C – Childersburg Campus**

Building C is an original building on the Childersburg campus constructed in 1965. The built-up, flat roof is thirty-nine years old and must be replaced to protect the building and its contents. The building is currently used for academic classrooms, office space and a physical education weight and exercise room.

Form 1B

2.1. **Library – Alex. City**

Once the new Library/Media Center has been constructed, plans will begin to renovate and remodel the existing Library Building. This will give the college an opportunity to create new classroom space and a Student Center/Lounge.

2.2. **Re-roof Building E – Childersburg Campus**

Building E is an original building on the Childersburg campus constructed in 1965. The built-up flat roof is thirty-nine years old and must be replaced to protect the building and its contents. The building is currently used for academic classrooms, office space and labs for biology and chemistry.

2.3. **Renovation/Remodeling Library and Technical Classrooms – Childersburg**

The library building on the Childersburg Campus was built in 1979 and has had very few changes made to it since. It houses the Media Center and two labs for the drafting program. One lab is a computer lab and the other contains drafting tables.

2.4. **Renovation/Remodeling Heritage Trail Conference Center**

The Conference Center was built in 1969 and has had very few changes made to it since. The Center is actually a Lodge with guest rooms and bath rooms in each guest room. It also houses a dining room, a conference room, and a den. The wall coverings and flooring have not been updated in several years if ever. Phase I will replace the wall coverings.

2.5. **Renovation/Remodeling A-Frame House**

The A-Frame house is located close to the conference center. It was built in 1982 and has had very few changes made to it since. The wall coverings and flooring need to be updated. Phase I will replace the wall coverings.
