 (The total of Form1A, 1B and 1C
 should be reported in Part D)

DESCRIPTIONS AND JUSTIFICATIONS

Alabama Southern Community College

Immediate Capital Requirements (FY 2014-2015)

1. Workforce Development Building Renovation – Monroeville – Phase 2: In February 2010, the College purchased a 76,000 square foot building which will primarily be used for workforce development. The phase one renovation will be completed during fiscal year 2013-2014 which includes a new facade with entrances, including a large vestibule, and several technical training laboratories. Phase two will complete the renovation of the building to include a 200 seat conference room, additional classrooms, laboratories, and a bookstore.
2. Roof Retrofit – Gilbertown Maintenance/Classroom Building: The roof on the Maintenance/Classroom Building on the Gilbertown campus is beyond the warranty period and in need of repair. The College plans to retrofit the 10,000 square feet building with a lock standing metal seam roofing system.
3. Fire Alarm Systems - Monroeville: Buildings 001, 002, and 003 on the Monroeville Campus were constructed in 1965 and did not include fire alarm systems. The systems need to be added for safety purposes.

Intermediate Capital Requirements (FY 2015-2016)

1. Paving and Landscaping of a Parking Area – Monroeville –Workforce Development Center: The parking lot for the Workforce Development Center in Monroeville will be landscaped and repaved to include an upgrade of the lighting. The current parking area is over 30 years old and needs landscaping and repaving for safety and aesthetics.
2. Classroom Addition – Thomasville: Historically, the Thomasville campus has been predominately a technical training, terminal degree offering branch campus with more laboratory classrooms than regular classrooms. With a significant increase in academic, university transfer course offerings, classroom space is limited. The College proposes to add a wing on the existing Administration/Classroom building that will house a minimum of 5 additional classrooms to alleviate the classroom shortage problem that will be exacerbated in the future.
3. Auditorium Entrance/Façade: The College proposes to update the front of the building to resemble the other buildings on campus including replacing the front doors and existing canopy.
