 D. TOTAL ALL CAPITAL PROJECTS \$ \$6,436,223
 (The total of Form A, B and C
 should be reported here)

DESCRIPTIONS AND JUSTIFICATIONS
Alabama Southern Community College

Immediate Capital Requirements (FY 2015-2016)

1. Workforce Development Building Renovation – Monroeville – Phase 2: In February 2010, the College purchased a 76,000 square foot building which will primarily be used for workforce development. The phase one renovation was completed during fiscal year 2013-2014 which included a new facade with entrances, including a large vestibule, and several technical training laboratories. Phase two will complete the renovation of the building to include a 300 seat conference room, additional classrooms, laboratories, and offices.
2. Roof Retrofit – Gilberttown Maintenance/Classroom Building: The roof on the Maintenance/Classroom Building on the Gilberttown campus is beyond the warranty period and in need of repair. The College plans to retrofit the 10,000 square feet building with a lock standing metal seam roofing system.
3. Fire Alarm Systems - Monroeville: Buildings 001, 002, and 003 on the Monroeville Campus were constructed in 1965 and did not include fire alarm systems. The systems need to be added for safety purposes.

Intermediate Capital Requirements (FY 2016-2017)

1. Classroom Addition – Thomasville: Historically, the Thomasville campus has been predominately a technical training, terminal degree offering branch campus with more laboratory classrooms than regular classrooms. With a significant increase in academic, university transfer course offerings, classroom space is limited. The College proposes to add a wing on the existing Administration/Classroom building that will house a minimum of 5 additional classrooms to alleviate the classroom shortage problem that will be exacerbated in the future.
2. Auditorium Entrance/Façade: The College proposes to update the front of the building to resemble the other buildings on campus including replacing the front doors and existing canopy.
